

Lab Assignment

Lab Assignment

- In lab assignments, you will take the concepts and techniques that you have learned this week and apply it to the assignment.
- You are expected to spend time in this lab session to complete today's assignment.
- Part of a developer's job is self problem solving, so in the lab setting, you are expected to do the same. You should spend at least 10 minutes try to problem solve on your own or as a team before asking for help from the professor and/or teaching assistants.

Lab Assignment

- Your assignment today is to create a mini site that consist of 2 html pages.
- Add headings, paragraphs, lists, text links, images and a table.
- You will be responsible for researching for contents. Recommended source of research for information: [Wikipedia](https://www.wikipedia.org).
- **Site Topic:** Your Local Community Board or Local Pet Adoption Service.
- Before starting this assignment: create a folder on your desktop computer, name it as [m1-assignment](#). Save all your files in this folder. Create a second folder inside this folder and name it as [images](#). Save all images (png, jpg, gif) that you use for this assignment in this folder.
- When finished, zip [m1-assignment](#) as one single zip file.

Lab Assignment

- **Assignment Due:** End of Lab Session
- **Submit:** [m1-assignment.zip](#)
- **Where to submit file:** GAP - *Week 1 (Jan 4-10) Day 3 Lab Assignment*
